1.2	Estates Strategy development	300,000
<b>Total Capital Allowances</b>		<b>400,000</b>

### 1. Capital Allowances

#### 1.1 ICT Equipment Failure

The data and telecoms network has hardware that may fail and will require to be replaced. This hardware can be relatively expensive and may require to be capitalised. This draft capital plan contains an allowance of £100k for this equipment.

#### 1.2 Estates Strategy Development

All Care Inspectorate properties are leased and it is intended that the cost of any major fit out work on new and existing properties would be included in lease charges. However, this may not always be possible and there is the potential for office moves to occur during the year as a result of property rationalisation options currently being considered with respect to the Estates Strategy.

In addition to this there is the possibility that existing plant, machinery, fixtures and fittings may have to be replaced.

The draft capital programme contains an allowance of £300k as provision for this potential capital expenditure.
