1.0 INTRODUCTION

This quarterly report sets out the key priorities of our corporate plan's strategic objectives and uses the agreed success measures which are designed to focus on the experiences of people who use services, their carers, our service providers and other key stakeholders. The report is an attempt to illustrate the impact of our work, as well as the breadth and depth of it.

This covering report provides performance information about key performance indicators and monitoring measures, where data is available. The attached report provides further information to illustrate the strategic outcomes in the Care Inspectorate's current corporate plan.

5.0 OTHER INFORMATION

In addition to the success measure reported here, the following annualised reporting data will be collected and considered as part of the performance measurement framework:

Resources Committee Reports:

- budget monitoring, billing of care providers, debt analysis
- annual procurement performance
- annual estates performance

Board Report

- annual health and safety report
- annual reporting statement on compliance with information governance responsibilities
- annual reporting on our progress against the public sector equality duty.

6.0 OTHER INFORMATION REQUESTED BY THE BOARD

At the June 2018 meeting, the Board suggested consideration of removing the percentage reported under KPI4 and retaining only the number. The percentage has been reported in this report pending a wider review of the agreed success measures, allied to refreshed performance measures in the new corporate plan. Additionally, the Board will consider a revised involvement strategy at its next meeting.

Version: 4.0	Status:FINAL	Date: 27/09/2018

The Board also requested more information about the dramatic increase in the number of children and young people who shared their experiences about school care accommodation, identified in the Q4 report. In 2016/17 we received 151 responses from 11 different services, using a paper questionnaire. In 2017/18 we received 1157 responses form 10 different services using a digital questionnaire. That equates to an increase of 642% in the response rate with the average number of responses per service increasing from 14.2 in 2016/17 to 115.7 in 2017/18 (715% increase).

7.0 RESOURCE IMPLICATIONS

There are no additional resource implications arising from this report.

8.0 BENEFITS FOR PEOPLE WHO EXPERIENCE CARE

This report relates to the monitoring of performance against the Care Inspectorate Corporate Plan 2016-18 to enable rigorous governance and challenge to the Care Inspectorate's Executive Team. This evidences the performance of the organisation in delivering strategic objectives and as such providing assurance and protection for people who experience care.
