

NHS Education for Scotland invites all care home staff to attend a webinar on Infection Prevention and Control / Covid-19. Webinars will be delivered in January 2021. The webinars are FREE and aim to provide staff with key infection prevention and control information they will need to protect themselves and others in the care home setting.

Duration: 90 minutes

Learning outcomes:

- Identify why infection prevention and control is important
- Discuss effective application of good infection prevention and control practices
- Consider changes required in your practices to enable improvements which may be required
- Source the latest guidance and resources available

REGISTRATION

To register for one of the webinars, please use the registration link for the webinar you would like to attend on the following page on Turas Learn:
